REHEARSAL REPORT #16

DATE:	11-07-2011	START TIME:	6:38	END TIME:	10:03
-------	------------	-------------	------	-----------	-------

REHEARSAL SUMMARY: Bill worked act 1 on stage and Trent worked HER HEART in the lobby. Also, Photographer from the Muleskinner came by and took a few process photos of the prologue.

SCENIC: Really loving the logs, they are working very well. The stage right tree branch is hanging on stage too much. Could we push it out of the way a bit so that actors can pass through that 1st leg entrance? The light on the outside of Daniel's porch seems to be an "indoor style lighting fixture" is it in the budget to get an "outside style lighting fixture"? **COSTUMES:** Marvalyn's socks need to have some tread/traction put on them so she doesn't slip. Jimmy, Sandrine and Villian will need to be in their costumes by 6:15 on Wednesday 11-9-11 for the daily star journal.

HAIR/MAKEUP: Nothing at the moment

PROPERTIES: Are these bags final? If so, we need 16 of them. Also, they are way too heavy, think more "fluffy and light" and filled to full capacity. The bar-table needs some pads on the bottom so we don't scrape the new paint. Is the bar table meant to be "two-toned"? Or is not finished being painted?

LIGHTING: Jeff, thanks again for being at the sound meeting.

SOUND: Jeff and Bill met with Alex and went over cue to cue again. Alex will hopefully have all of his material ready to present on Wednesday night

FRONT OF HOUSE/PUBLICITY/BOX OFFICE: Nothing at the moment
