REHEARSAL REPORT #17

DATE: 11/8/11	START TIME: 6:30pm	END TIME: 9:58pm
---------------	--------------------	------------------

REHEARSAL SUMMARY: Bill worked Act II scenes on stage. We worked with Dave and Rhonda's layers. Trent and Kyle worked scenes in the lobby.

SCENIC: If we are able, could we have some house numbers on Daniel's house? Tonight we spiked a blue X for generally where the shoe should drop. Would it be possible to add some handles on the back of Daniel's house to help him pull the house on and off? Bobby marked the spots with glow tape for where the handles could potentially go. Is it possible to put black carpet/treads on the apron stairs to reduce shoe stomping noises?

COSTUMES: none at this time

HAIR/MAKEUP: Hair and Makeup Workshop times:

Wednesday, November 9th
